Maytag's Dependable Leader Awarded To Murray Philanthropist

Murray Journal, November 6, 2013

By Peri Kinder

When Art Pasker entered a bid to design the Boys & Girl's Club in Murray, he was pretty certain he'd get the job, especially when he promised to do the job for free. That was in 1974, and Pasker hasn't stopped contributing his time and talents to the

program dear to his heart. His time as a Boys & Girls Club member in Colorado influenced his life so positively, that he decided to pay it forward.

During a surprise event on Oct. 9, Pasker was named the 2013 Maytag Dependable Leader Award, recognizing his 40 years of work with the club.

"There's nobody more deserving for this award, around the entire nation, than Art Pasker," Boys & Girls Club of South Valley Executive Director Bob Dunn said. "He has changed lives. There's no question about that."

The Maytag Repairman himself stopped by the club to deliver the

award to Pasker, along with a check for \$20,000. Pasker was only one of 24 leaders across the country to receive the award this year, and he said the money will go to continue programs that keep the youth of Murray safe and excited about education. Visibly emotional, Pasker accepted the award, promising to continue his support of the club's programs.

"I'm very surprised. My wife encouraged me to wear a tie today, but I didn't listen to her," Pasker said. "I don't know why I've been blessed financially to do these things. It's great to have people in the background to support these kids."

that provides the organization with more than \$60,000 in revenue annually—and he purchased a shuttle bus to local school children wouldn't have to walk in bad weather to get to the club. He and his wife Martha contribute to several organizations in the Murray area.

Jaci McKeage was only 13 when Pasker took her under his wing. She attended the club after her mother was sent to prison, and her siblings were separated. McKeage went to live with her grandmother, Janet Moore, who worked at the Boys & Girls Club. That's where she met Pasker, and learned how much he valued education.

Not only did Pasker design the club's facilities for free, he used his influence to persuade contractors and vendors to donate \$500,000 in time and materials to the project. He also creates still-life paintings that he donates to the club's auction each year. Additionally, Pasker has set up a charitable trust in 2010

In a letter read by Moore during the Maytag event, McKeage wrote, “Art called me to meet him in his office. He showed me his list of grandchildren he was putting through college, He wrote my name on that list and said he was going to include me. He told me about his road through college and the hard work it was going to take. I left his office in tears. No one had ever offered me a hand up like

that. I started my studies the next semester.”

With Pasker’s faith in her abilities, McKeage was named the 2005 Youth of the Year, and became the first person in her family to graduate from high school. She was so touched by the Pasker’s generosity that she is now saving money to pay for her brother’s college tuition.

“Art Pasker is truly a dependable leader who selflessly gives his time and efforts to Boys & Girls Clubs of South Valley and we are proud to see him recognized with this incredible award from Maytag,” Dunn said. “Through the Maytag Dependable Leader Award, Art Pasker will continue making a positive impact in our community and build upon our reach. We are grateful to Maytag for supporting our organization’s efforts to serve young people and make a difference in their lives.”

JAGUAR 3.4 SEDAN

Only 7,500 Americans can get a new Jaguar this year . . .
 Naturally, Jaguars are scarce. You just can't mass-produce a superb car like the Jaguar unless you compromise your standards. We won't. Witness: the painstaking workmanship in the lithe, low body, the hand-finished interiors, the watchmakers' precision in the magnificently coordinated power plant.

In case you need an excuse to buy a Jaguar:

Performance—Tested and proved in international race track competitions, the famous Jaguar engine provides quiet, surging power for starts and safe passing. *Amazingly economical.*

Roadability—The Jaguar suspension system provides ultimate comfort even on the roughest of surfaces, prevents roll on winding roads. No pitching, no wavering.

Resale Value—You get unbelievably high trade-in value because Jaguar, the finest car of its class in the world, stands up for thousands of miles beyond the expected "normal" standards.
