

# Project P2: Project Second Step

*CS 6640*  
*Fall 2020*

**Assigned:** 15 September 2020

**Due:** 13 October 2020 (handin all work on CADE)

## **Project**

Discuss how techniques in Chapters 1 through 4, and if possible, Chapter 5, of the text can be applied to the problem, what functions were developed to try them out, and the results of using them. Report experiments performed to explore possible approaches.

**P2 Handin:** Handin (on the CADE):

- Report (PDF)
- Matlab Code

Provide enough detail and everything necessary to duplicate your results.
